MISSING PERSON CLEARINGHOUSE

2016 ANNUAL REPORT

State of Wyoming

Office of the Attorney General

Division of Criminal Investigation

HISTORY OF THE CLEARINGHOUSE

During the 1990 Wyoming legislative session, the legislature mandated “The Office of the Attorney General shall establish and operate a central repository of information and clearinghouse on missing children and missing persons.” (Reference 90LSO-0206, Section 200, subsection (e))

The Wyoming Division of Criminal Investigation responded by establishing the Missing Person Clearinghouse on May 1, 1990. Responsibility for the Clearinghouse was assigned to the Control Terminal Section within the Division of Criminal Investigation. The Control Terminal Section was selected because of the established ties with the National Crime Information Center. A database was established to provide statistics and reports for the Missing Person Clearinghouse. This database includes information identifying the individual, limited personal descriptors, the jurisdiction holding the missing person report, and dates indicating when reported missing and when located.

NATIONAL CRIME INFORMATION CENTER

Information entered into the Clearinghouse database is the result of entries into NCIC (National Crime Information Center) by Wyoming law enforcement agencies. NCIC has established the following five categories for entry of missing persons:

Disability - A person of any age who is missing and under proven physical/mental disability or is senile, thereby subjecting himself/herself or others to personal and immediate danger.

Endangered - A person of any age who is missing under circumstances indicating his/her safety may be in danger.

Involuntary - A person of any age who is missing under circumstances indicating the disappearance may not have been voluntary, i.e., abduction or kidnapping.

Juvenile - A person under the age of 21 who is missing and does not meet any of the criteria set forth in any of the other categories.

Catastrophe Victim - A person of any age who is missing after a catastrophe.

Other - A person over the age of 21 not meeting the criteria for entry into any other category who is missing and for whom there is a reasonable concern for his/her safety.

A record for a missing person who is under the age of 21 shall be entered into NCIC 2000 within 2 hours, using one of the appropriate categories (Disability, Endangered, Involuntary, Juvenile, or Catastrophe Victim). A missing person report filed with an agency is sufficient documentation for entering a juvenile.

A record for a missing person who is over the age of 21 may be entered in the NCIC Missing Person File provided the entering agency has signed documentation in its possession supporting the stated conditions under which the person is declared missing. This written documentation will aid in the protection of the individual's right to privacy.

In the absence of documentation from a parent, legal guardian, next of kin, physician, or other authoritative source, including friend or neighbor in unusual circumstances, or when such documentation is not reasonably attainable, a signed report by the investigating officer will suffice.

NCIC does not require a waiting period for the entry of a person into the NCIC Missing Person File. In December of 1990, the use of waiting periods such as 24 or 48 hours before entering a missing person into NCIC by law enforcement agencies was prohibited by federal law (National Child Search Assistance act, 1990). Within 60 days after entry, a child who is still listed as missing in NCIC, must have dental records and other identifiable information, if available, entered into NCIC.

NATIONAL CENTER FOR MISSING AND EXPLOITED CHILDREN

Wyoming is registered with the National Center for Missing and Exploited Children. As a registered member, the Wyoming Missing Person Clearinghouse receives continuous information from the National Center on missing persons listed with the Center. Additionally, possible sightings called into this center on their toll-free hot line are forwarded to state programs for appropriate distribution to law enforcement agencies.

This year the National Center forwarded 28 possible sighting/information notices to the Wyoming Clearinghouse. The notices were referred to the appropriate law enforcement agencies for possible investigation.
