

Wyoming State Crime Lab Mass Spectra Search Downloading Instructions

1. Some settings in Internet Explorer prevent downloading the zip file. Use Firefox or Chrome if you have trouble downloading in your normal browser.
2. Click on the “Mass Spectra Search [date]” link to download it.
3. Once downloaded, open the zip file.
4. Extract or unzip the file, saving the entire folder to your desktop or the location of your choice.
5. It is **IMPORTANT** that the entire “Mass Spectra Search [date]” folder stays together. You can move the folder to any location on your computer as long as you move the entire folder. Moving just the excel file or the “Spectra of Compounds” folder will remove all the links to the spectra in the search.
 - a. If the hyperlinks to the spectra in the Mass Spectra Search are not working because the excel file or the “Spectra of Compounds” folder were moved
 - i. Put the file and/or folder back into the original “Mass Spectra Search [date]” folder
 - ii. If hyperlinks still don't work, delete entire folder and files. Start over.
